### Volume 136 (1984)

Effect of liver enzymes on the mutagenicity of nitroheterocyclic compounds: activation of 3a,4,5,6,7,7a-hexahydro-3-(1-methyl-5-nitro-1 <i>H</i> -imidazol-2-yl)-1,2-benzisooxazole and deactivation of nitrofurans and nitroimidazoles in the Ames test (MTR 08530) by Helen R. Skeggs, Rosalind M. Berglund, William J.A. Vandenheuvell, Helmut Mrozik, Peter G. Wislocki and Frank J. Wolf (West Point and Rahway) . . . . .	1-8
Genotoxicity of quercetin in cultured mammalian cells (MTR 00853) by J.C.M. van der Hoeven, I.M. Bruggeman and F.M.H. Debets (Wageningen and Rotterdam) . . . . .	9-21
Mutagenicity of several derivatives of dipyrrodo[1,2- <i>a</i> :2',3'- <i>d</i> ]imidazoles (MTR 00856) by K. N'Goy, C. de Meester, D. Pairon, L. Fabry, B. Loukakou, C. N'Zouzi, G. Saint-Ruf, M. Mercier and F. Poncelet (Brussels, Mol and Orléans) . . . . .	23-31
Mutagenicity of benzidine and benzidine-congener dyes and selected monoazo dyes in a modified <i>Salmonella</i> assay (MTR 00859) by Michael J. Prival, Sandra J. Bell, Valerie D. Mitchell, Martha D. Peiperl and Vicki L. Vaughan (Washington) . . .	33-47
Frameshift mutagenicity in <i>Salmonella typhimurium</i> of furocoumarins in the dark (MTR 00865) by Ileana Quinto, Dietrich Averbeck, Ethel Moustacchi, Zdenka Hrisoho and Jacqueline Moron (Paris and Orsay) .	49-54
Aliphatic halogenated hydrocarbons produce volatile <i>Salmonella</i> mutagens (MTR 00866) by Linda M. Distlerath, John C. Loper and Chitta R. Dey (Cincinnati) . . . . .	55-64
Mutagenic activity of methyl- and fluoro-substituted derivatives of polycyclic aromatic hydrocarbons in a human hepatoma (HepG2) cell-mediated assay (MTR 03837) by Leila Diamond, Kay Cherian, Ronald G. Harvey and John DiGiovanni (Philadelphia and Chicago) . . . . .	65-72
Increased sister-chromatid exchange in bone-marrow cells of mice exposed to whole cigarette smoke (MTR 00857) by William F. Benedict, Ashutosh Banerjee, Ken K. Kangalingam, David R. Dansie, Richard E. Kouri and Carol J. Henry (Los Angeles and Bethesda) . . . . .	73-80
Inhibitory effects of $\alpha$ - and $\beta$ -naphthoflavones on DMBA-induced anomalies in germ cells assessed by sperm abnormality assay (MTR 00862) by A.S. Raj and Morris Katz (Downsview) . . . . .	81-84
Genotoxicity of garlic, turmeric and asafoetida in mice (MTR 00870) by Suresh K. Abraham and P.G. Kesavan (New Delhi) . . . . .	85-88
<i>Letter to the Editor</i>	
Microbial mutagenicity of selected hydrazines (Misuse of data) (MTR 00854) by D.J. Paes (Ware) . . . . .	89-90
<i>Letter to the Editor</i> (MTR 00855)	
by Eleanor G. Rogan (Omaha) . . . . .	91
The detection of mutagenic chemicals in the tissues of shellfish exposed to oil pollution (MTR 00871) by Munira Kadhim and James M. Parry (Swansea) . . . . .	93-105
Relationship between exposure time and metabolic activation of dichloromethane in <i>Salmonella typhimurium</i> (MTR 00872) by W.M.F. Jongen (Wageningen) . . . . .	107-108
Genotoxicity of the free-radical producers $\text{CCl}_4$ and lipoperoxide in <i>Aspergillus nidulans</i> (MTR 00863) by Giampiero Gualandi (Rome) . . . . .	109-114
Mutagenicity of the insecticide endosulfan in <i>Drosophila melanogaster</i> (MTR 00877) by A. Velázquez, A. Creus, N. Xamena and R. Marcos (Bellaterra) . . . . .	115-118
Induction of mutations and chromosome aberrations in lung cells following in vivo exposure of rats to nitrogen oxides (MTR 00861) by Kimio Isomura, Masatsugu Chikahira, Kiyoshi Teranishi and Kokichi Hamada (Kobe) . . . . .	119-125
An evaluation of the mutagenic potential of cyanamide using the micronucleus test (MTR 00875) by A. Menargues, R. Obach and J.M. Vallès (Barcelona) . . . . .	127-129
Dominant lethal test in female mice treated with methyl mercury chloride (MTR 00869) by L. Verschaeve and A. Léonard (Brussels and Mol) . . . . .	131-136

Mutagenic activity of some clastogenic chemicals at the hypoxanthine guanine phosphoribosyl transferase locus of Chinese hamster ovary cells (MTR 00879) by David E. Amacher and Inna Zelljadt (Groton) . . . . .	137-145
Induction of unscheduled DNA synthesis in primary rat hepatocytes by benzidine-congener-derived azo dyes in the in vitro and in vivo/in vitro assays (MTR 03855) by Fred Joachim and Gary M. Decad (San Jose) . . . . .	147-152
Evaluation of morpholine, 3-morpholinone, and <i>N</i> -substituted morpholines in the rat hepatocyte primary culture/DNA repair test (MTR 00876) by C. Clifford Conaway, Charles Tong and Gary M. Williams (Beacon and Valhalla) . . . . .	153-157
Mutations in <i>Salmonella typhimurium</i> and inactivation of <i>Bacillus subtilis</i> transforming DNA induced by phenylhydroxylamine derivatives (MTR 0860) by Takehiko Nohmi, Kunie Yoshikawa, Masahiro Nakadate, Rumiko Miyata and Motoi Ishidate Jr. (Tokyo) . . . . .	159-168
Absence of mutagenicity of trioxane and dioxolane in <i>Salmonella typhimurium</i> (MTR 0864) by Zbigniew Kowalski, Ewa Spiechowicz and Bogusław Barański (Łódź) . . . . .	169-171
Evaluation of diallate and triallate herbicides for genotoxic effects in a battery of in vitro and short-term in vivo tests (MTR 0873) by Shahbeg S. Sandhu, Michael D. Waters, Kristien E. Mortelmans, Elizabeth L. Evans, Mary M. Jotz, Ann D. Mitchell and Violette Kasica (Research Triangle Park and Menlo Park) . . . . .	173-183
Relationships between structures and mutagenic potencies of 16 heterocyclic nitrogen mustards (ICR compounds) in <i>Salmonella typhimurium</i> (MTR 0878) by David M. DeMarini, Hoang N. Pham, Alan J. Katz and Herman E. Brockman (Normal) . . . . .	185-199
Application of urine mutagenicity to monitor coal liquefaction workers (MTR 0880) by Leslie Recio, Harry G. Enoch, M.A. Hannan and Ronald H. Hill (Lexington and Ashland) . . . . .	201-207
Genotoxic activity of nitroaromatic explosives and related compounds in <i>Salmonella typhimurium</i> (MTR 0882) by Wen-Zong Whong and Gordon S. Edwards (Waltham) . . . . .	209-215
Testing of 2,4,5-T-amino acid conjugates for mutagenic activity in <i>Salmonella typhimurium</i> strains (MTR 0883) by Kamal A. Rashid, John G. Babish and Ralph O. Mumma (University Park and Ithaca) . . . . .	217-221
Apparent changes in structure-activity relationships for antimitochondrial effects of 9-anilinoacridines according to <i>Saccharomyces cerevisiae</i> strain and methodology (MTR 0888) by Lynnette R. Ferguson (Auckland) . . . . .	223-231
An evaluation of the genotoxic properties of herbicides following plant and animal activation (MTR 0884) by Michael J. Plewa, Elizabeth D. Wagner, Glenda J. Gentile and James M. Gentile (Urbana and Holland) . . . . .	233-245
Corn oil and its minor constituents as inhibitors of DMBA-induced chromosomal breaks in vivo (MTR 0874) by A.S. Raj and Morris Katz (Downsview) . . . . .	247-253
Comparison of 7 azo dyes and their azo reduction products in the rat and hamster hepatocyte primary culture/DNA-repair assays (MTR 0881) by Douglas J. Kornbrust and Thomas R. Barfknecht (Research Triangle Park) . . . . .	255-266
Contents, Vol. 136 (1984) . . . . .	267-268
